DESCRIPTION

Odoo Technical Developer with 5+ years of hands-on experience across v13–v19 (Community & Enterprise), specializing in custom module development, OWL/JavaScript frontend components, QWeb PDF report design, and ERP workflow automation. Proven track record delivering scalable solutions across Sales, Accounting, Inventory, CRM, and HR domains for clients in Mauritius, India, and remote engagements. Currently based in Mauritius and actively seeking Odoo Developer opportunities in UAE or Kuwait.

TECHNICAL SKILLS

Expert	Odoo v13–v19 (Community & Enterprise), Python, PostgreSQL, XML/QWeb, OWL (JavaScript), REST APIs, Git
Proficient	FastAPI, Django, Flask, React.js, HTML/CSS, MySQL, jQuery, Ajax
Familiar	React Native, Power BI, Tableau, Jenkins (CI/CD), Microsoft SQL, SQLite

PROFESSIONAL EXPERIENCE

Global Edge Software — Port Louis, Mauritius
Odoo Technical Developer & Support (Full-time)

Aug 2025 – Present

- Developed and maintained 10+ custom Odoo modules across Sales, Purchase, Inventory, Accounting, CRM, and HR for multiple client environments.
- Automated order-to-invoice and inventory workflows, reducing manual processing time by approximately 35% for key clients.
- Built and enhanced OWL (JavaScript) frontend components delivering modern, responsive UI/UX across Odoo 16 and 18.
- Designed and customized 15+ QWeb PDF reports and XML views, menus, and actions to meet client business requirements.
- Configured role-based access rights, record rules, and security groups for 50+ users across multi-company environments.
- Debugged complex production issues and optimized ORM queries, improving page load and report generation performance.
- Performed 4+ database migrations across Odoo versions (v13–v19), including Enterprise → Community upgrades with zero data loss.
- Managed end-to-end technical activities including deployments, version upgrades, troubleshooting, and client training sessions.

SkyRich Technology — Chennai, India (Remote)
Odoo Developer (Contract, Part-time)

Jul 2025 – Aug 2025

- Customized standard Odoo v17 & v18 Enterprise modules based on functional requirements from consultants.
- Fixed 10+ bugs improving stability across existing ERP implementations in Odoo v17 and v18 Enterprise.
- Collaborated with functional consultants to translate business needs into technical solutions within tight deadlines.

Think23 — Chennai, India (Remote)
Odoo Developer & Support (Freelance, Remote)

Jun 2025 – Aug 2025

- Handled 30+ support tickets for multiple clients across Odoo v12–v17, resolving issues with average turnaround of 1 day.
- Debugged and enhanced custom and standard Odoo modules, implementing new features under tight deadlines.
- Provided remote technical support and production issue resolution across different time zones.

JVL Technologies — Chennai, India (Remote)
Full Stack Developer — Odoo, FastAPI, Django, Flask (Full-time)

Feb 2025 – Jul 2025

- Led customizations across Odoo v14–v18 using Python, XML, and OWL (JavaScript) for 5+ client projects.
- Developed custom dashboards and UI enhancements improving reporting visibility for business stakeholders.

- Integrated 3+ third-party services using REST APIs, including payment gateways and logistics platforms.
- Built mobile-friendly features using React Native and contributed to e-commerce workflow improvements.
- Participated in code reviews and performance tuning, reducing average API response time by ~25%.

4x Engineer — Surat, India

Feb 2025 – Apr 2025

Junior Full Stack Developer — FastAPI (Contract, Part-time)

- Developed FastAPI backend services with JWT-based authentication and authorization for scalable web applications.
- Designed efficient PostgreSQL database schemas and optimized SQL queries, improving query performance by ~30%.
- Collaborated with frontend teams for seamless API integration and documentation.

STP Web Hosting — Rajkot, India

Oct 2023 – Jan 2025

Junior Full Stack Developer — Django, Odoo, Node.js (Full-time)

- Developed and customized Django applications and admin panels, building e-commerce features integrated with backend systems.
- Customized Odoo v13 modules and improved ERP workflows for internal business operations.
- Optimized PostgreSQL/MySQL databases for performance and fixed production bugs across 3 live environments.
- Supported Node.js admin panel development and improved application security practices.

Skill Lync — Chennai, India

Feb 2023 – Sep 2023

Junior Data Analyst

- Performed data cleaning, transformation, and analysis using Python and SQL on datasets of 100k+ records.
- Built interactive dashboards using Power BI and Tableau, delivering actionable insights to stakeholders.

JVL Technologies — Chennai, India

Jan 2022 – Jul 2023

Full Stack Developer & Support (Freelance)

- Developed FastAPI backend APIs with JWT authentication and integrated frontend dashboards for client projects.
- Built scalable backend architecture and database models; supported production deployments and bug fixes.

Techno — Salem, India

May 2021 – Oct 2021

Junior Python Developer

- Developed Python automation scripts and assisted in debugging and troubleshooting backend applications.
- Built foundational skills in backend development, teamwork, and problem-solving.
