DESCRIPTION

Odoo Technical Developer with 4+ years of hands-on experience across v13–v19 (Community & Enterprise), specializing in custom module development, OWL/JavaScript frontend components, QWeb report design, and ERP workflow automation. Proven track record delivering solutions across Sales, Accounting, Inventory, CRM, and HR domains. Currently based in Mauritius, open to remote opportunities.

EXPERIENCE

Global Edge Software, Mauritius — Odoo Technical Developer & Support

Aug 2025 – Present

- Working across Odoo (v13–v19) on development, migration, and support activities.
- Designed, developed, and maintained custom Odoo modules across Sales, Purchase, Inventory, Accounting, CRM, and HR.
- Implemented business workflow automation to streamline order-to-invoice and inventory management processes.
- Developed and customized XML views, menus, actions, and QWeb PDF reports to meet business requirements.
- Built and enhanced OWL (JavaScript) frontend components to deliver modern and responsive UI/UX in Odoo 16 and Odoo 18.
- Configured access rights, record rules, security groups, and multi-company environments.
- Debugged complex production issues and optimized Odoo ORM queries to improve application performance and stability.
- Managed end-to-end technical activities, including deployments, upgrades, troubleshooting, and client training.
- Performed database migrations across Odoo versions (v13–v19), including Enterprise → Community and Community → Community version upgrades, along with migration of custom modules and business data

SkyRich Technology, Chennai — Odoo Developer (Contract, Part-time)

Jul 2025 – Aug 2025

- Customized standard Odoo modules in Odoo (v17 & v18, Enterprise) based on functional requirements
- Fixed bugs and improved stability in existing ERP implementations across Odoo v17 and v18 (Enterprise).
- Assisted in **workflow optimization** and feature enhancements.
- Collaborated with functional consultants to translate business needs into technical solutions

SKILLS

Expert

Odoo (v13–v19), Python, PostgreSQL, XML/QWeb, OWL (JavaScript), REST APIs, Git

Proficient

FastAPI, Django, Flask, React.js, HTML/CSS, MySQL, jQuery, Ajax

Familiar

React Native, Power BI, Tableau, Jenkins (CI/CD), Microsoft SQL, SQLite

Think23, Chennai (Remote) — Odoo Developer & Support (Freelance, Remote)

Jul 2025 – Oct 2025

- Handled support tickets for multiple clients across Odoo (v12–v17).
- Debugged and enhanced **custom and standard Odoo modules**.
- Implemented new features under tight deadlines.
- Provided remote technical support and production issue resolution.

JVL Technologies, Chennai (Remote) — Full Stack Developer (Odoo, FastAPI, Django, Flask) (Full-time)

Feb 2025 – Jul 2025

- Led customizations across Odoo versions 14 to 18 using Python, XML, and OWL (JavaScript).
- Developed custom dashboards and UI enhancements.
- Built mobile-friendly features and contributed to application development using React Native.
- Integrated third-party services using REST APIs.
- Improved e-commerce workflows and backend processes.
- Participated in code reviews and performance tuning.

4x Engineer, Surat — Junior Full Stack Developer (FastAPI) (Contract, Part-time)

Feb 2025 – Apr 2025

- Developed **FastAPI backend services** for scalable applications.
- Implemented **JWT-based authentication and authorization**.
- Designed efficient **database schemas** and optimized SQL queries.
- Collaborated with frontend teams for API integration.

STP Web Hosting, Rajkot — Junior Full Stack Developer (Full-time) (Django, Odoo, Node.js)

Oct 2023 – Jan 2025

- Developed and customized Django applications and admin panels.
- Built e-commerce features and integrated them with backend systems.
- Customized Odoo v13 modules and improved ERP workflows.
- Optimized PostgreSQL/MySQL databases for performance.
- Fixed production bugs and improved application security.
- Support for Node.js Application development in Admin panel

Skill Lync, Chennai — Junior Data Analyst

Feb 2023 – Sep 2023

- Performed data cleaning, transformation, and analysis using Python and SQL.
- Built interactive dashboards using Power BI and Tableau.
- Analyzed datasets to generate actionable business insights.
- Prepared reports and visualizations for stakeholders

JVL Technologies, Chennai — Full Stack Developer & Support (Freelancer)

Jan 2022 – Jul 2023

- Developed FastAPI backend APIs and integrated frontend dashboards.
- Implemented JWT authentication and secure API access.
- Built scalable backend architecture and database models.
- Supported production deployments and bug fixes.

Techno, Salem — *Junior Python Developer*

May 2021 – Oct 2021

- Developed basic Python scripts for automation tasks.
- Assisted in debugging and troubleshooting applications.
- Gained hands-on experience in backend development and teamwork.
- Built a strong foundation in programming and problem-solving.
